HOW IS THE COURSE STRUCTURED?

- All your material is accessible via this link -

- <http://csbt.co.uk/mycourses>

- Your course contains the below modules

1. Cells and Tissue
2. Skeletal System
3. Muscular System
4. Circulatory System
5. Lymphatic System
6. Endocrine System
7. Digestive System
8. Nutrition
9. Urinary System
10. Nervous System
11. Respiratory System
12. Reproductive System
13. The Eye and Ear

HOW TO LOGIN?

- Access the website -
 - <http://csbt.co.uk/mycourses>
- Login with your username & password
- In case you have issues with you username and password send us an email on info@csbt.co.uk

COURSE CATALOGUE

- On the course content page you will see the modules available for your course.
- Click on each lesson to access the lesson content and the related quiz.

Anatomy and Physiology

Course Status: Not Started

Course Content

Lessons	Status
1 1 - Cells and Tissues - Part 1	
2 2 - Cells and Tissues - Part 2	
3 3 - Cells and Tissues - Part 3	
4 4. Osteology - Part 1	
5 4. Osteology – Diagrams	
6 5. Osteology - Part 2	
7 6. Muscular.pdf	

PROGRESSING

- As you access the various modules you can go through the module notes. It is advised that while reading you either use the Page Up and Page down buttons (highlighted in red) or else you use the arrow keys on your keyboard to change page.
- Most of the modules have a Quiz/Test allocated to them and this test will need to be done before progressing to the next module. The pass rate is 70%.
- Once finish and pass the exam you can progress to the next lesson.

1 – Cells and Tissues – Part 1

The screenshot displays a digital learning interface. At the top, a navigation bar includes a search icon, a page indicator 'Page: 10 of 26', and a zoom control 'Automatic Zoom'. Below this, the main content area features a 3D cutaway diagram of an animal cell titled 'STRUCTURE OF A TYPICAL ANIMAL CELL'. The diagram is labeled with various organelles: Mitochondrion, Ribosome, Rough Endoplasmic Reticulum, Plasma Membrane, Cytoplasm, Lysosome, Smooth Endoplasmic Reticulum, Free Ribosome, Centriole, Nucleus, Nucleolus, Chromatin, Nuclear Pore, Nuclear Envelope, and Golgi Complex. A '3-Dimensional View' radio button is selected. Below the diagram, a 'Quizzes' table is visible, with a red box highlighting the first entry: '1 Module 1 - Cells and Tissue - Test'. To the right of the table is a 'Status' column with a checkmark icon. At the bottom left, a 'Next Lesson →' button is highlighted with a red box.

Quizzes	Status
1 Module 1 - Cells and Tissue - Test	<input checked="" type="checkbox"/>

[Next Lesson →](#)

TEST QUESTIONS

- The vast majority of the questions are multiple choice and you need to select the correct answer and click next.

Module 1 – Cells and Tissue – Test

Module 1 – Cells and Tissue – Test

Question 1 of 2

1. Question

Which of the following is the genetic material of the cell?

- a) DNA
- b) RNA
- c) Protein
- d) Ribosomes

FINAL THOUGHTS

- ◉ Even though most of the content is delivered online, we are always here for you and you can reach us on info@csbt.co.uk
- ◉ This is a personalised course and you are entitled a set of one-to-one contact hours which can be done via Skype
- ◉ If you have any issues with accessing the content or with the course material or tests please do let us know and we'll help you accordingly.
- ◉ At the Cambridge School of Beauty Therapy, we always strive for quality, and hence we also expect that you allow enough time to study the module material so you achieve a good score in your tests.
- ◉ We do hope you enjoy this course and looking forward to having you study with us.
